About Me

I am extremely passionate about the world of **computer science**. I love learning something new every day and applying it to my life. Once I know something properly, I love the process of **teaching** that topic to someone in an easier way.

Education

Brac University, Bachelor of Science in Computer Science and Engineering (CSE) — Sept 2022 – Now

- **CGPA:** 3.72/4.0 (108 credits completed)
- **Coursework:** Data Structure, Algorithms Analysis and Design, Computer Architecture, Digital Logic Design, Data Communications, Database Management, Software Engineering, Artificial Intelligence.

Experience

Software Development Engineer Intern, uSavior – Dhaka, BD — June 2024 – Now

- Exploring different categories of Frameworks for advanced web apps and software development.
- Recognizing relevant problems solvable through known/modified algorithms and fabricating scratch solutions.

General Secretary, Revolution – Youth Development, BD — Oct 2022 – Now

- Encouraging youth to participate in social work to develop their personality and mindset.
- Organized and worked for several programs based around the welfare of street children.

Advisor (S-5), General Secretary (S-4), Photography Club of Rouf College – Dhaka, BD — Nov 2019 – Dec 2022

- Leading a pack of enthusiasts as a Photography mentor. Managed and hosted many events while leading a team of talents.
- Overseeing the administration of the club and the club fund. Connecting students with college authorities to encourage passionate individuals.

Co-Founder, Spread Love for Street Children - SLFC – Dhaka, BD — Feb 2021 – Jul 2022

- Founding an organization with college friends to reach out to the unprivileged street children and their families in Bangladesh.
- Creating a platform for talented and passionate youths to participate in non-political social work to serve their society and nation.

Projects

GardeniAR — [Link]

- A cross-platform AI enriched gardening assistant application with integrated AR features to help gardeners to enjoy the art of gardening, leaving the task management, caring instructions, weather based precautions, etc. to the feature rich app.
- Tools Used: React Native with Expo and MERN Stack with MongoDB, MVC Architecture.

Meal Sync — [Link]

- A dynamic meal solution for bachelors or anybody looking for home-made healthy foods on a regular subscription basis. Also, a platform for skilled home chefs to utilize their talent for secure earnings. Meal sync connects conscious consumers with talented home chefs.
- Tools Used: MERN Stack with MongoDB, MVC Architecture.

Student Help Desk [Link]

- A website for students of a University to get various help, resources, course reviews, etc. I led the team for this group project.
- Tools Used: HTML, CSS, PHP, MySQL

Drive Scraper [Link]

- A Software to scrape through a selected Google Drive folder for updates. It can dynamically send notifications in a Discord channel (Current implementation).
- Tools Used: JavaScript, Google Drive API V3, Discord Bot

Another NoteApp [Link]

- Yes, it is another note app with a beautiful UI. This app is fully deployed using render. Built as a learning project for MERN Stack and MVC Architecture.
- Tools Used: MERN Stack, TailwindCSS, MVC Architecture

Pig Game [Link]

- Made this fun game while learning JavaScript, followed a specific tutorial, and applied optimizations later on
- Tools Used: HTML, CSS, JavaScript

My Website [Link]

- I made this website for myself back in 2020 using raw HTML and CSS
- Tools Used: HTML, CSS

Skills

- **Web Development** - Full Stack MERN Development with MySQL and MongoDB following MVC Architecture.
- **Python** - OOP, Data Structure, and execution of several algorithms using Python. Data Analysis, Representation, and Basic Computing using Different Python Libraries.
- **JavaScript** - ReactJS, DOM manipulation, Web application, and Mini Software building.
- **Media** - Advanced knowledge of Photography and Cinematography with professional experience in photo and video editing.

Technologies

Languages & tools: Java, C++, C, Python, JavaScript, MySQL, MongoDB, MERN Stack, React Native, Expo
